DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: an ordered sequential relationship with respect to an optical axis for the extant optical elements of independent claim 1. Correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki (U.S. Patent No. 5,936,772). Suzuki discloses a light collection system (col. 3, ln. 6-33; **FIG. 1**) comprising a light source **1**, a condenser lens **4a** to redirect light from said light source **1**, a reflector mechanism **2|3** to redirect light generated by said light source **1**, an aperture **6** to define an object of said system, and an image lens **4b** to define an image projected by said system;

Art Unit: 2873

wherein said reflector mechanism 2|3 comprises a primary reflector 2 and at least one ancillary reflector element 3. Claim 1 is therefore anticipated by Suzuki.

Allowable Subject Matter

5. In the examiner's opinion, the rejection of applicants sole independent claim 1 herein under 35 U.S.C. 102(b) is primarily engendered by the ambiguities associated with the omission of essential structural cooperative relationships therein.
